IOMICA Request for IOM Class Rule Amendment

To ISAF RSD Division Members

ISAF RSD has received request for IOM class rule change from IOM ICA dated 4th June 04

"D.2.1(b)(6) Hulls listed at the IOMICA web site may have Texalium reinforcement which, apart from the aluminium coating, complies with D.2.1(b)(4). Such hulls shall have a date of initial fundamental measurement between 15 May 2003 and 1 September 2004. This exemption does not apply to World and Continental class championships after 1 March 2006."

A request for a specified hull registration number to be listed on the IOMICA web site in accordance with new IOM class rule D.2.1(b)(6) shall be made by the owner to his/her hull Certification Authority. A hull shall only be eligible for listing provided that it had Texalium reinforced plastic at the time of its initial fundamental measurement and that the initial fundamental measurement was carried out between 15 May 2003 and 1 September 2004."

ISAF RSD PC approved mentioned class rule change on meeting dated 12th August 04.

Best regards

Keith Skipper
General Secretary / Treasurer
